feud between members of the Cash and Cleary

The fathers of officers cash and of Cleary had been Street Commissioners, and a bitter rivalry sprung up between them which culminated in the murder of Cleary on the occasion of a special election held in the village

The question of raising \$50,000 for improving roads was submitted to the voters and the proposition was carried.

During the progress of the election Officer Cash and Cleary were very prominent at the polis, working hard among the voters to secure their franchises. In consequence they met frequently and

every meeting was the signal for inciplent quarrels that portended blows, but no one imagined for a moment that anything more

Officer Cash was in full uniform at the time Although bloodshed was not anticipated the friends of both Cash and Cleary strove to

keep them apart and prevent a row. In this they were successful until shortly before midnight, when Cash and Cleary again met, on the White Plains road, near Mc-Turk's store, and entered into a controversy

Cleary retorted hotly and Cash drew his revolver and fired point blank at his op-ponent before Lawyer funt could interfere. Without a word Cleary fell to the ground with a builet in his left temple. The shot was heard by beputy Sheriff Dela-hanty, who was near by, and promptly placed Cash under arrest.

Medical aid proved unavailing, however, and after lingering until 5 o'clock this merning cleary died without recognizing any or his relatives.

Coroner Frederick Drews was summoned from Mcunt Vernon. He took charge of the body this morning and proceeded to impaner a jury.

At the direction of the Coroner, Cash was taken, still in juil uniform, to the county jan at White Plains, where he was locked up on a charge of murder.

Before leaving he said to the Coroner that

election, and that he intended to be ready for any emergency.

Filence o. Cleary insist that the remark will go far towards proving that Cash's shooting of Cleary was premeditated.

The real cause of the encounter was said this porning to have been a desire on the part of the lathers of each to secure the con-tracts, or the work of improving the high-mys authorized by last night's election.

According to one version Cash has been

East sutnorized by last night's election.

According to one version Cash had been drinking when he met Cleary and accused him of trying to prevent the elder Cash from securing the highway improvement contract. Hot words ensued, and Cash is said to have rebarked, just as he shot Cleary:

"You attend to your business and ill was held for examination in the Lee Avenue attend to mine."

The shouting has created the most intense actionent throughout all this part of the sounty. Both the Cash and Cleary families are widely known and have been prominent to politics for very action.

Cash's cut and bloody face bears out the assertion that he got into an alteration with James Cleary regarding he arrest of Cleary's father, and that luring the fight he received the cuts and bruises upon his face.

A resident of Williamsbridge gives another version of the shooting. He says that during the election, James Cleary's father, Patrick Cleary, got into an altercation with Police Officer Patrick Cash about 11:30 o'clock. The trouble arose over the political differences between the two families.

According to this informant, Cash was drunk at the time. Finding he was grunk at the time. Finding he was retting the worst of the argument with Patrick Cleary, Cash remembered that he was Chief of Police, in unitorm and on duty, and undertook to arrest

There appears to have been no just ground for the arrest. James Cleary ithe son of Patrick, remonstrated with Cash, telling him he could not arrest his father, who had not committed any breach of the peace.

Cash proceeded to drag Patrick Cleary away to the lock-up, and James Cleary undertook to prevent him. A fight then ensued, and Cash drew his revolver and deliberately shot James Cleary in the sead.
